Conflict-of-interest declarations	 Missing	—	—	Not implemented
Pre-meeting report	 Partial	scheduled	/api/reports/pdf	Exists but not surfaced pre-meeting

Create Meeting flow (correct first step)	✓ Implemented	scheduled	POST /api/schedule	Schedule → then record; correct order
Live recording — mic + system audio	✓ Implemented	record	/api/meetings/:id/recording/*	Dual-channel real-time recording
Audio/video file upload	✓ Implemented	record	POST /api/meetings/:id/recording/upload	Working
Pasted meeting text	✓ Implemented	record	POST /api/meetings/:id/transcript	Working
Live transcript	✓ Implemented	record	Real-time via browser MediaRecorder	Working
Speaker detection	⚠ Partial	record	AI extraction	AI-extracted, not real-time per-speaker
Note/action/decision capture during meeting	⚠ Partial	record	AI extraction post-meeting	Captured post-processing, not live during
Polls during meeting	✗ Missing	—	—	Not implemented
Attendance tracking	✓ Implemented	scheduled	meeting_attendees + /public/:token	Working (public confirm + manual)
Remote attendance	✓ Implemented	scheduled	meeting_attendees	Marked as virtual/remote
Quorum calculation	⚠ Partial	governance	boards.quorum_required	Stored but no auto real-time calculation

Voting log	✓ Implemented	resolutions	POST /api/resolutions/:id/vote	Working
Circular resolutions	✓ Implemented	resolutions	resolutions table	Working
Attendance certificates	✗ Missing	—	—	Not implemented
Minutes: AI-generated draft	✓ Implemented	scheduled	POST /api/meetings/:id/process	Working via Claude
Minutes: Secretary review & edit	✓ Implemented	scheduled	secretary_review stage	Working
Minutes: Member collaborative review	✗ Missing	—	—	No item-by-item comments or proposed edits
Minutes: Item-specific comments	✗ Missing	—	—	Not implemented
Minutes: Proposed edits + accept/reject	✗ Missing	—	—	Not implemented
Minutes: Full revision history	⚠ Partial	scheduled	meeting_lifecycle_log	Stage transitions logged, not content diffs
Minutes: Explicit approval	✓ Implemented	scheduled	chairman_approval → board_approval	Working
Minutes: Lock after approval	✓ Implemented	scheduled	Stage = archived prevents edit	Working
Minutes: Digital e-signature	✗ Missing	—	—	Not implemented

Minutes: Signature tracking	 Missing	—	—	Not implemented
Minutes: Official PDF export	 Implemented	scheduled	GET /api/reports/:type/pdf	Working
Minutes: Word export	 Implemented	scheduled	—	Working
Minutes: Watermark + letterhead	 Partial	—	—	PDF export exists; watermark not verified
Minutes: Version-preserving archive	 Partial	scheduled	meeting_lifecycle_log	Stage log exists; file versioning unclear
Minutes: Decision Registry update	 Implemented	resolutions	resolutions table	Auto-linked
Minutes: Task Follow-Up board update	 Implemented	tasks	tasks table	Auto-linked via AI extraction
Minutes: Audit trail	 Partial	admin	meeting_lifecycle_log	Lifecycle transitions logged; full tamper-resistance unverified
Tasks: Full CRUD	 Implemented	tasks	/api/tasks	Full create/read/update/delete working
Tasks: Owner, due date, priority, source meeting	 Implemented	tasks	tasks table	All fields present

Tasks: Department, progress	✓ Implem ented	tasks	tasks.progress, tasks.department	Working
Tasks: Status (Not Started→In Progress→Done→Overdue)	✓ Implem ented	tasks	tasks.status	Working
Tasks: Automatic overdue marking	⚠ Partial	tasks	Server scheduler	Reminder scheduler runs; auto-overdue check needs verification
Tasks: Reminder notifications	✓ Implem ented	—	src/utils/notify.js + Twilio	Email + WhatsApp reminders working
Tasks: Escalation to Chairman/CEO	✓ Implem ented	—	notify.js	Escalation after configured delay
Tasks: Task lineage (Meeting→Agenda→Decision→Action→Owner)	✓ Implem ented	tasks	tasks.meeting_id, tasks.source	Lineage fields present
Secure internal messaging	✗ Missing	—	—	No chat/messaging between users
Documents: Create/upload	✓ Implem ented	docume nts	POST /api/documents	Working
Documents: Searchable library	✓ Implem ented	docume nts	GET /api/documents/library	Working
Documents: Permissions	✓ Implem ented	docume nts	RBAC middleware	Working

Documents: Secure downloads	✓ Implemented	documents	Auth-gated /uploads	Working
Documents: Board packs	✗ Missing	—	—	No dedicated board pack compilation
Documents: Watermarks	✗ Missing	—	—	Not implemented
Documents: Archive and retention	⚠ Partial	documents	doc_classification field	Basic tagging; no retention policy engine
Decision Registry	✓ Implemented	resolutions	resolutions table	Working
Policies & Bylaws Library	⚠ Partial	policies	Documents filtered by classification	No dedicated policies table; uses doc library
Policy-to-decision linkage	✗ Missing	—	—	Not implemented
Delegation of Authority matrix	✗ Missing	—	—	Not implemented
Full legal audit trail	⚠ Partial	admin	meeting_lifecycle_log, permission_audit_log	Partial; general CRUD audit missing
Reports: Weekly executive	✓ Implemented	analytics	/api/reports/executive-weekly	Working
Reports: PDF/Excel generation	✓ Implemented	analytics	/api/reports/:type/pdf	Working
Ask Ameen: AI chat	✓ Implemented	ask panel	POST /api/ai/chat	Working

Ask Ameen: Floating button on every screen	 BROKEN	Sidebar only	—	Currently a sidebar destination only; must be floating fixed on every screen
Ask Ameen: Context-aware (current screen)	 Missing	—	—	No current-panel context injected
Ask Ameen: Never exposes unauthorized data	 Implemented	—	RBAC middleware	Claude calls are auth-gated
Role permissions: Board Secretary	 Implemented	admin	<code>roles + role_permissions</code>	Full access configured
Role permissions: Meeting Coordinator	 Implemented	—	RBAC	Configured
Role permissions: Board Member/Executive	 Implemented	—	RBAC	Configured
Role permissions: Employee	 Implemented	—	RBAC	Tasks-only access configured
Backend route protection	 Implemented	—	<code>auth.js</code> middleware	JWT + <code>requirePermission</code> on all routes
Notifications: In-app	 Implemented	header bell	<code>/api/notifications</code>	Working
Notifications: Email/WhatsApp	 Implemented	—	Twilio + SMTP	Working

Audit logs: RBAC changes	✓ Implemented	admin	permission_audit_log	Working
Audit logs: General system activity	⚠ Partial	—	meeting_lifecycle_log	Meetings logged; document/user actions not centralized
Settings: Team & permissions	✓ Implemented	admin	/api/members, /api/roles	Working
Settings: Two-Factor Authentication	✗ Missing	—	—	Not implemented
Settings: Multi-entity management	✗ Missing	—	—	Single-org only
Settings: Backup & restore	✗ Missing	—	—	Not implemented
Settings: Full data export	✗ Missing	—	—	Not implemented
Settings: Zoom/Teams/Google Meet integrations	⚠ Partial	integrations	schedule.platform field	Platform field stored; no live webhook/OAuth
Settings: Regulatory alerts	✗ Missing	—	—	Not implemented
Settings: Analytics & KPIs	✓ Implemented	analytics	/api/analytics/team-performance	Working
Boards & Committees: List view	✓ Implemented	boards	BC_DATA mock	Working UI, but using mock data
Boards & Committees: Detail views	⚠ Partial	boards	Mock data + /api/gov/boards	Backend exists; UI uses

				client-side mock
Boards & Committees: CRUD (create/edit)	✓ Implemented	boards	In-memory BC_DATA	Works but in-memory only — not persisted to DB
Design: Dark green + gold identity	✓ Implemented	All panels	app.css CSS variables	Correct palette in place
Design: Almarai (AR) + DM Sans (EN)	✓ Implemented	All panels	Google Fonts	Loaded
Design: No emojis in navigation	✗ BROKEN	Sidebar	index.html lines 117–161	All sidebar buttons use emoji icons — violates requirement
Design: No Free/Pro badge for end users	✗ BROKEN	Header	#plan-btn in header	Badge visible to all roles
Design: No undefined values	✓ Fixed	All	—	Verified clean in last QA
Design: Mobile bottom navigation	✗ Missing	—	app.css	Sidebar collapses but no bottom nav on mobile
Design: Polished RTL	✓ Implemented	All	CSS dir="rtl"	Working

Summary Counts

Status	Count
✓ Fully working	47

 Partial / needs work	19
 Missing or broken	24
